Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 03 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 1-3, 5-7, and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sasaki (US 5,959,672) in view of Chen et al. (US 6,208,693 B1) as set forth in the previous Office Action, Paper No. 6, and the discussion follow.

With regarding to claims 1-3, 5-7, and 10, the applicant amended and argued that Sasaki and Chen neither teaches nor suggests marking of the macroblocks of the reference image belonging to the exclusion zone being implement through luminance values of these macroblocks in order to perform motion estimation as claimed.

The examiner respectfully disagrees with the applicant. It is submitted that Sasaki further teaches marking of the macroblocks of the reference image belonging to the exclusion zone being implement through luminance values of these macroblocks in order to perform motion estimation (2n TH FRAME of fig. 46 considered as the reference frame having the color MTP (macroblock type) that is marked by a number 2, 3,3 within (belonging) to the bold region and implement in order to perform motion estimation, wherein the color MTP includes the luminance values (col. 11, lines 52-54)). Therefore, the claimed features are unpatentable over Sasaki and the combination of Sasaki and Chen.

Allowable Subject Matter

2. Claims 8 and 9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
